The finalists are undergoing a thorough due diligence process involving the 2014 Fellows, Staff, Ambassadors, Board members and third party executives. It was challenging to narrow the 300 outstanding semi-finalist applicants to 30 high potential social entrepreneur finalists. It will again be a welcomed challenge to select 10 social entrepreneurs for the January 2015 Fellowship.

Thank you to our volunteers and the incredibly humble, passionate, dedicated social entrepreneurs we have the privilege to engage!
